### GROCERS' NOTICE.

In accordance with our desire to give our customers the best possible service at the lowest prices, we have decided to discontinue the practice of allowing a discount of 5 per cent on retail monthly bills, and therefore give notice that on and after the 1st of November, 1904, no discount whatsoever will be allowed on any groceries sold in our stores. All groceries will be sold at net prices, on a basis of spot cash or thirty days' settlement, and there will be no exception made to this rule. Purchases made in our retail departments up to the 1st of November will, of course, be subject to the 5 per cent discount as heretofore.

The discount question has frequently been the cause of disputes and dissatisfaction and we believe this arrangement will improve our relations with our patrons, while it will at the same time enable us to more adequately meet the keen competition prevailing in our line of business, and to give our customers the benefit of the closest prices.

## FIFTY-SIX GAMBLERS WERE GATHERED IN YESTERDAY

The police captured thirty-nine Chinese gamblers last evening in the second story of a house on the corner of Maunakea and Beretania streets. Officer Apana made the capture possible by climbing up the back of the house and breaking his way in through lattice work which screened the back room. The gambling den was guarded in a very elaborate manner. A watchman squatted on the sidewalk and pulled a string whenever a police officer came in sight. Another watchman was in the sleeping room through which those that wished to enter the room above passed. He pulled a cord attached to a bell which let the guard at the first door know whether the man should be admitted or not. Then came another heavy plank door with a 2"x3" cross-bar. From this cubby hole there led a steep narrow staircase to the second floor where the gambling was conducted. Halfway up these stairs was a plank door heavily barred and containing a peep hole which was the final barrier.

The police made a bluff of trying to enter the way described and distracted the attention of the guards. Officer Apana then began climbing up the side of the house. Getting up to the lattice work he found a weak spot and broke in. In the meantime about half the

Chinamen had started down the stairs to another exit, but, finding it guarded tried to go back. Those above however, had become rattled and fastened the door on the stairs and these men were bottled up as neatly as could be. Apana's sudden appearance among them made it impossible for them to use the two other exits. One was through the wall into the women's quarters and the other through a cubby hole to the veranda.

The other officers soon made their entrance and the work of carting the gamblers to the police station began. It took three trips to take them all and they were jammed on the wagon like sardines.

Ball was set at \$25 and their friends had a hard time raising the money as the Sheriff would not take checks.

Two other successful gambling raids occurred during the day. In the afternoon six Chinamen were caught gambling away up in Pauoa Valley.

The other raid occurred rather late in the evening on Beretania above River street and eleven Japs were captured. Fifty-six gamblers in an afternoon and evening is certainly pretty good work.

The other arrests were comparatively nil, consisting of a Jap for embezzlement and a sailor, Anderson, for being a common nuisance.

## GOOD HOUSE ASSURED FOR THE WAR DRAMA

There was an encouraging demand for seats for "The Spy" at the opening sale at Wall, Nichols Co. yesterday morning and reservations continued good throughout the day, which leaves no question as to the financial success of the undertaking.

Honolulu's best talent will be represented in the exciting and popular war drama. The work of Mr. W. D. Adams is so well known to theatre goers as to require hardly any description. Mr. Adams plays with a freedom and dramatic power that shows him to be thoroughly conversant with the stage and he has a polish that has been attained by a considerable professional experience in plays of the very highest order.

To Mr. Gus Murphy has been assigned the heaviest and perhaps the most difficult part of the play to interpret. It is the character of Frank Rutledge and Mr. Murphy has taken hold of the role in a manner that cannot fail to please the most critical audience. Mr. Murphy, besides being a natural born actor, has the power to grasp the full importance of this heavy villain part, and the execution to give it a most realistic rendition.

Col. Rutledge is a character that will be well handled by Mr. Harry Cousins. The part contains ample opportunities for dramatic force and good acting throughout.

Miss Gertrude Hall, who demonstrated her stage ability to the entire satisfaction of an exclusive and critical audience at the Lady Minstrels will characterize Mrs. Rutledge, wife of the Colonel.

Mr. Swartz, a new comer who has had a great deal of experience on the amateur stage, will play the part of Johnnie Howard, the drummer boy. This will be Mr. Swartz's first experience before the Honolulu footlights. His cleverness is a very welcome acquisition to the group of local talent.

Capt. Jorgstroff will give a very soldierly bearing to the part of the Union Captain. Rem. Harrison makes an ideal Farmer Howard, investing the character with pure country spirit, an every-inch-loyal-to-the-flag New Hampshire farmer who would lay down his life rather than that the stars and stripes should suffer insult.

The entire performance teams with opportunities which each player knows how to make the most of and there is every assurance that "The Spy" will be the crowning success of the season.

Reserved seats for both Thursday and Saturday's performances are on sale at Wall, Nichols Co.

### AUSTRALIAN SUGAR.

Dr. Maxwell's Experiments in the North.

An Australian paper says:

"Dr. Maxwell has returned to Brisbane from a visit to Mackay, principally made in connection with the sugar experiment stations, although he also revisited the central mills under the control of the Treasurer. At the experimental station, he said, they were just reaching the results of the year's work, the analyses of the cane being made, and the crops being harvested and sent to the mill; so that they now knew just about how the experiments for the year came out. On the whole, the work has been extremely satisfactory. The most important feature of last year's work has been the bringing to maturity of some seventy varieties

of cane that have been grown in competition, all the conditions of soil, manuring, and cultivation being equal. The varieties are of several nationalities, having been introduced from South Africa, Louisiana, Mauritius, Demerara, Trinidad, and New Guinea, and including of course what are known as the old Queensland varieties. The report of the results will show that certain New Guinea varieties, and also varieties from Mauritius, Trinidad, and Louisiana, are at this time very superior to the older varieties of cane that have been grown in Queensland for some years, both from a riller's and a grower's point of view. Some of these varieties at thirteen months have yielded over 60 tons of cane an acre, and as far as 12 tons of total sugar per acre; so that on the whole the work of the year in these respects has been very satisfactory. Three years ago, Dr. Maxwell said, he informed the Press that he hoped to reach 10 tons of sugar an acre; and they had passed that mark already—and with what is known as the short or young crop of cane. Other matters of interest, he added, would be found in the report of the year.

"Dr. Maxwell said that he met the directors of the central mills for the transaction of current business; but there was nothing to state on the subject. The controller would have to report to the Treasurer in due time upon the affairs and management of the several central mills under his control. All the information required would be furnished in full detail.

"Questioned with regard to the high yields of sugar, Dr. Maxwell said that he had previously stated that 10 tons of sugar had been produced on one plantation in Sandwich Island, and when speaking on the subject some time ago he stated that he hoped to show it was possible in Queensland, upon average soil, with good cultivation, to get 10 tons of sugar an acre; and had already reached it."

## NURSING MOTHERS

"A richer milk than milk" is good food for nursing mothers. Scott's Emulsion is the rich cream of cod liver oil, and contains ten times as much cream as milk does.

The nursing mother must eat with the purpose of producing good, nourishing milk for her baby. A little Scott's Emulsion is often a very wise addition to her daily diet. If through nervousness or weakness her milk is a failure, Scott's Emulsion will help make it a success.

The baby gets the benefit, too, when the mother takes Scott's Emulsion. The same remedy brings new strength and nourishment to both.

We'll send you a sample free upon request.
